

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + Refrain from automated querying Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + Maintain attribution The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + Keep it legal Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at http://books.google.com/

TO THE

Congregational Ministers and Churches

IN MASSACHUSETTS.

REVEREND AND BELOVED,

Our having been chosen as part of a Committee of seven, and afterwards as a Sub-committee, was the occasion of our writing what we here call a Report, which in this manner we now address to you. We have been aware, that we could not, in any of the ordinary methods, make the Report to more than a small proportion of ministers, and to only a few of the great multitude of church members. We have therefore concluded, with the advice of many of our brethren, and we trust with the approbation of all, to make use of the printing press, for the purpose of presenting our Report to the whole body of Congregational ministers and churches in Massachusetts, and to those in other States, so far as they may be disposed to receive it. But in all this, we have acted with the full understanding, that we have no more authority or right in the matter, than any other individuals. The fact of our being a Committee, we regard as only the

occasion of our presenting the subject to the consideration of our brethren. Other men might have undertaken such a work, and have accomplished more than we have. But who would have been likely to do it, without some such movement as has influenced us? In this publication, it is our wish to be regarded as individual ministers. All the use we make of our appointment as a Committee, is, that we undertake the business without embarrassment, and proceed in it without the consciousness of any impropriety.

With fraternal love and confidence, we submit the result of our humble efforts to your disposal.

In behalf of the Sub-committee,

LEONARD WOODS, Chairman.
